TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, Zod, HTML/CSS

Backend: Node.js, REST APIs, Tanstack Query, Prisma, PostgreSQL

DevOps: Git, Terminal, Vercel, Neon

PROFESSIONAL SKILLS   Collaboration| Adaptability & Continuous Learning | Complex Problem-Solving & Critical Thinking

----------------------------- *P R O F E S S I O N A L   E X P E R I E N C E* -----------------------------

Enterprise Resource Planning (ERP) System:
Developed and launched a full-stack ERP system, reducing manual workflows by 40%** through automated processes. Implemented a comprehensive, scalable ERP platform utilizing **Next.js**, **Node.js**, **Prisma**, and **PostgreSQL**, effectively optimizing internal business processes and workflows. Optimized application performance and user experience through deep understanding and effective application of Server-Side Rendering (SSR) and caching techniques, minimizing load times and enhancing responsiveness.

- **Engineered** secure, role-based access control (RBAC) and **robust JWT authentication** leveraging advanced open-source libraries to ensure granular security and user permissions across the system.
- **Enhanced** system security and protected sensitive data through strategic integrations and meticulous validation processes, significantly reducing vulnerabilities and the possibility of mistakes in the system.

Tourism & Travel Company Landing Page (Current Project):
 Developing a dynamic, visually appealing, and responsive landing page to enhance user engagement and effectively promote client services.

- **Integrated** advanced UI/UX features, including smooth animations, interactive transitions, and sophisticated 3D scrolling animations, significantly elevating visual appeal and user engagement.
- **Implemented** comprehensive SEO strategies, meticulously crafting optimized metadata and content architecture, and actively pursuing indexing approval to maximize online visibility and organic reach.
